SUMMARY

Hands-on experience building mobile and web applications using React.js, Next.js, Node.js, and React Native. Proficient in JavaScript, TypeScript, Java, SQL, REST APIs, and databases, with experience integrating third-party and AI-powered services. Focused on clean, reusable code, performance, and reliable features, with strong knowledge of OOP, DSA, and modern software development practices.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Mobile: React Native
Backend: Node.js, Python, Express.js, REST APIs
Database: MongoDB, PostgreSQL, SQL
Cloud & Deployment: AWS (EC2, S3), Firebase, Vercel
AI & Automation: OpenAI APIs, Prompt Engineering
Tools: Git, GitHub, Postman, Jira, Trello, Cursor, Vercel v0, Antigravity, Posthog, Mixpanel

EDUCATION

Medicaps University **Aug 2022 – May 2026**
Bachelor of Technology in Computer Science Technology - 7.96 - CGPA *Indore, MP*

EXPERIENCE

SK Groups **June 2026 – Present**
Junior Software Developer *Onsite*

- Develop mobile apps, backend services, and web platforms across multiple products, handling development, debugging, and delivery.
- Manage Android, iOS builds, debugging, and releases via Android Studio, Play Console, Xcode, and Apple Developer.
- Integrate PostHog, Mixpanel, Sarvam AI, Google Maps, Weather AI, TTS, STT APIs using Git/GitHub workflows.
- Collaborate across teams, owning deliverables and using Claude, Cursor to accelerate development and debugging.

Protonshub Technologies **Jan 2025 – May 2025**
Full Stack Developer Intern *Remote*

- Developed AI-powered full-stack applications using Next.js, React.js, Node.js, MongoDB, and React Native.
- Built REST APIs, integrated databases, and optimized application performance with scalable architectures.
- Contributed to the Tybee Go mobile app, Findanio Mobile and Web App, enhancing cross-platform UI and user experience for Android and iOS.
- Accelerated development using Cursor, Antigravity, Git, and GitHub to build clean, efficient, and maintainable solutions.

PROJECTS

Potato Bazaar Web and Mobile Applications **Feb 2026 – Present**
https://play.google.com/potatobazaar/ | https://potatobazaar.com/

- Developed a full-stack digital marketplace for real-time agricultural trading across web and mobile platforms.
- Built scalable features for KYC, secure transactions, payments, logistics, and AI-powered crop insights.
- Integrated REST APIs, analytics, maps, weather, and third-party services across the application ecosystem.
- Engineered with React.js, Next.js, Node.js, and React Native for scalable web, Android, and iOS applications.

Tybee Go - Mobile Application **Jan 2026 - Present**

- Developed scalable features for a tourism mobile application using React Native and TypeScript.
- Integrated RESTful APIs, pagination, and dynamic content rendering for seamless data delivery.
- Optimized application performance through efficient state management, navigation, and asynchronous data handling.
- Built reusable, modular components following clean architecture principles for improved scalability and maintainability.

EXTRACURRICULAR ACTIVITIES

- Completed HCL Tech's 240-hour Full Stack Developer with AI program, building practical full-stack and AI development skills.
- Moonhack Hackathon Finalist, secured 4th place at Hackmivo Hackathon, and earned 2 LeetCode badges for demonstrating strong problem-solving and DSA skills
